Dear Bright Kid Foundation

A letter of Appreciation for the Soap and Wash Station installed at Likhwezi

On behalf of Likhwezi Day Care Centre Mooiplaas @Makhazi Village, and our ECD parent community, I would like to thank you so much for your generous donation of a "Hand Washing Station" comprised of 4 taps to our Day Care Centre. We truly appreciate your commitment to the children in our community.

This has worked tremendously in helping us to control the spread of the Covid19 virus as everyone who enters our premises is able to safely and immediately wash their hands in a way that water wastage is eliminated. This is a very important matter in our area where water is scarce. We also really appreciate that the older preschool children are able to use the system independently and we are able to assist the very young ones in a safe way.

This Soap and Wash station has impressed the community to such an extent that our neighbouring schools have started to ask more about the product (Hand Washing Station) and they would love to have their own ones. Specifically Makhazi Public School as the School Principal is very much interested, and supportive of our ECDC programmes. Even the local police station have made enquiries about this product.

Once again thank you for your assistance with this installation.

You can contact me on my email: ntwazanatayi@gmail.com or my cell number: 0787029717

Your truly

Ntwazana Patience Tayi
