RE: Letter of endorsement

To whom it may concern,

This letter serves to confirm that Bright Kid Foundation is working with Adopt-a-School Foundation to raise funds to install Soap and Wash Stations into public schools across South Africa. Bright Kid Foundation is an independent entity to the Adopt-a-School Foundation and is raising funds to install permanent Soap and Wash Stations in schools that are part of the Adopt-a-School Foundation programme. The Foundation is recommending potential beneficiary schools based on our knowledge of their need and knowing that they are going to be installed in schools that will maintain them and ensure their sustainable use.

Whilst it has been over a year since the start of the COVID-19 pandemic and the first National Lockdown, the impact has been profound and enduring. Without urgent intervention, the impact of the COVID-19 pandemic is expected to have a devastating long-term impact on the education system, our learners' performance and their future prospects. School needs are increasing, with a renewed focus on the necessity to improve access to clean water. This initiative will go a long way in fulfilling that need.

Adopt-a-School Foundation is a registered NPO that has been in operation since 2002. We work in over 600 rural and townships schools in every province in South Africa, as well as in a handful of schools in Lesotho and one in Mozambique. We are able to transform dysfunctional schools into centers of excellence through our holistic Whole School Development model that focuses on improving schools' infrastructure, leadership, curriculum and social welfare capabilities. Our focus is on ensuring that all our projects are relevant and sustainable.

The Bright Kid Foundation's Soap and Wash station initiative is closely aligned to our Whole School Development model and as such the Foundation is very pleased to be working with Bright Kid Foundation to ensure that these soap and wash stations go into schools where they will have the greatest impact.
